

Letter of Recommendation

Dear the Admission Committee,

Adrian Santoso was a student in the Department of Informatics at Institut Teknologi Sepuluh Nopember from 2019 until his graduation in 2023. Throughout his academic journey, I had the privilege of serving as his guardian lecturer. I closely observed his academic and personal growth, allowing me to provide a well-informed recommendation regarding his abilities and character. I am pleased to take this opportunity to express my support for him through this letter.

His outstanding academic performance can be seen by his impressive GPA of 3.82 out of 4, making him one of the top students in his graduating class. This achievement demonstrated his strong ability to surpass consistently in challenging academic pursuits.

He was a participant in my Web Programming course, where he achieved an A grade in the course. His performance in this class demonstrated his technical skills and capability to work collaboratively in a team to solve complex problems.

To enrich the knowledge he has acquired, Adrian also demonstrated competence when he served as my Teaching Assistant (TA) in the International Undergraduate Program (IUP) class for the Design and Analysis of Algorithms course. In this role, his responsibility is to guide and mentor eight international students.

Adrian proved himself as a trustworthy person as my TA. He was responsible for checking their assignments and providing constructive feedback to the students on their quizzes and tests. In addition, Adrian consistently ensured that all tasks were submitted promptly and on time. He made all of these convenient to collaborate with him.

In summary, Adrian is a highly motivated, talented and responsible person. I have confidence in his ability to thrive in his Master's programs, and he will perform excellently in your program. If you have further questions or information, please don't hesitate to contact me at irfan@if.its.ac.id.

Sincerely yours,

Misbakhul Munir Irfan Subakti, S.Kom., M.Sc.
Lecturer at the Department of Informatics,
Institut Teknologi Sepuluh Nopember, Indonesia.
